21. (new) A shopping mall or other complex comprising:
  - at least one multi-level parking garage having a top floor thereon, wherein said parking garage is connected to said shopping mall or other complex;
  - a drive-in movie theater on said top floor, wherein said theater comprises a screen for projecting moving images thereon; and
  - a first building section of said shopping mall or other complex, wherein said first building section is located on, adjacent or near said parking garage, and extends at least one floor higher than said top floor of said parking garage, wherein said screen is located on said top floor such that it substantially faces said first building section,

wherein the orientation of said screen relative to said first building section helps to shield said screen from by-standers in and around said shopping mall or other complex.

22. (new) The mall or complex of claim 21, wherein said screen is located on a first end of said top floor, and said first building section is located on, adjacent or near a second end of said top floor, opposite said screen.

23. (new) The mall or complex of claim 21, wherein a projector is located in said first building section, and adapted to project said moving images onto said screen.

24. (new) The mall or complex of claim 22, wherein a projector is located in said first building section, opposite said screen, and adapted to project said moving images onto said screen.

25. (new) The mall or complex of claim 22, wherein a second building section is part of and connected to said shopping mall or other complex, wherein said second building section extends at least one floor higher than said top floor of said parking garage, and extends along the side of said parking garage, from said first end to said second end, wherein the orientation of said screen relative to said second building section helps to shield said screen from by-standers in and around said shopping mall or other complex.

26. (new) The mall or complex of claim 25, wherein said parking garage and said second building section are separate structures, and at least one bridge is provided between said parking garage and said second building section.

27. (new) The mall or complex of claim 21, wherein a second parking garage having a second top floor is provided in association with said shopping mall or other complex, and wherein an events center is provided on top of said second parking garage.

28. (new) The mall or complex of claim 21, wherein a short range radio sound system is provided and adapted for use in connection with said drive in movie theater.

29. (new) The mall or complex of claim 21, wherein a restaurant and/or other establishment is provided in said first building section, wherein persons in said restaurant and/or other establishment can view said screen.

30. (new) A shopping mall or other complex comprising:

a first multi-level parking garage having a first top floor thereon, wherein said first parking garage is connected to a first portion of said shopping mall or other complex;

a drive-in movie theater located on said first top floor, wherein said theater comprises a screen for projecting moving images thereon; and

a second multi-level parking garage having a second top floor thereon, wherein said second parking garage is connected to a second portion of said shopping mall or other complex, wherein an events center is located on top of said second parking garage.

31. (new) The mall or complex of claim 30, wherein said first and second portions of said shopping mall or other complex are located between said first and second parking garages.

32. (new) The mall or complex of claim 30, wherein said events center comprises an outdoor auditorium with stadium type seating.

33. (new) The mall or complex of claim 30, wherein a restaurant and/or other establishment is provided in connection with said events center, wherein persons in said restaurant and/or other establishment can view activities taking place in said events center.

34. (new) The mall or complex of claim 30, wherein said shopping mall or other complex comprises a first building section located on, adjacent or near said first parking garage, wherein said first building section extends at least one floor higher than said first top floor, and the orientation of said screen relative to said first building section helps to shield said screen from by-standers in and around said shopping mall or other complex.

35. (new) The mall or complex of claim 34, wherein said screen is located on a first end of said first top floor, and said first building section is located on, adjacent or near a second end of said first top floor, opposite said screen.

36. (new) The mall or complex of claim 35, wherein a projector is located in said first building section, opposite said screen, and adapted to project said moving images onto said screen.

37. (new) The mall or complex of claim 36, wherein a second building section is part of and connected to said shopping mall or other complex, wherein said second building section extends at least one floor higher than said first top floor of said first parking garage, and extends along the side of said first parking garage, from said first end to

said second end, wherein the orientation of said screen relative to said second building section helps to shield said screen from by-standers in and around said shopping mall or other complex.

38. (new) The mall or complex of claim 37, wherein said first parking garage and said second building section are separate structures, and at least one bridge is provided between said first parking garage and said second building section.

39. (new) The mall or complex of claim 30, wherein a short range radio sound system is provided and adapted for use in connection with said drive in movie theater.
